The Finishing Touch
Océ 2400 fanfold

Convenient online fanfolder

Whether you're an architect checking designs or an engineer printing out work drawings, you want your drawings quickly, without wasting time sorting, trimming, and folding them. So that you can easily find the information you need. Get the easy finishing touch with the Océ 2400 online fanfolder.

SAVE TIME WITH ONLINE FOLDING

With this system, you can immediately pick up neatly fanfolded color and monochrome drawings and extra long plots from the printer. In a very short time frame you are enabled to find your drawings to continue with your main tasks. As the prints are already fanfolded, highly paid staff such as engineers and architects, do not have to waste their time on folding the drawings. Say goodbye to creased pages and time wasted in wrestling with awkward drawings. Reading a set of fanfolded documents is as easy as turning the pages in a book, versus handling large flat sheets.

HANDLE NEW APPLICATIONS WITH YOUR PRINTER

Now you can quickly produce ready-to-use fanfolded maps, such as cartographic and topocadastral maps, using the narrow fold option, which can fanfold documents with a minimum width of 4".
Long plots of 236" or more — which are common for manufacturing and utilities — can be easily handled. This system has a special program that produces one compact package for extra long documents.

EASY FOLDING FROM YOUR DESKTOP*

For extra convenience, you can choose the folding options you want right from your desktop. Simply use the Océ Windows® Print Driver or the Océ job submission tool Océ Publisher Select™ software to make it happen.

KEEP YOUR DESK CLEAN AND ORGANIZED

Work more productively with neatly folded documents, organized according to your own system. No more hunting for information. Everything is at your fingertips.

Standard folding packages

8.25"
(210 mm)

Standard folding packages with binding edge

PAPER HANDLING	
Paper feed	Automatic or manual
Paper width	11"–36.6" (279–930 mm)
Paper length	8.25", 16.5" (210, 420 mm) – unlimited
Paper weight	16–30 lbs. (60–110 g/m²)
Paper type	Bond paper, plain paper, others on request
FOLDING	
Technology	High precision rollers and blade technology
Folding speed	**Fanfold**: synchronized with print speed **Crossfold**: 13 ft./min. (4 m) manual feed only
Output delivery	3 folded packages (E-size; A0)
Fanfold, automatic	Panel width adjustable from 4"–16.5" (100–420 mm) in increments of 0.25" (1 mm)
Binding edge	0"–1.25" (0–30 mm) in increments of 0.25" (1 mm)
Crossfold, manual	Adjustable 7"–16.5" (200–420 mm)
Folded package width	4"–16.5" (100–420 mm)
Folding standards	DIN 824, AFNOR, ANSI, US sizes
Folding accuracy	Exceeding DIN 824 specifications
Folding programs	4 standard programs + 4 custom programs (unlimited with the Océ ColorWave® 650 printer)
ENVIRONMENTAL DATA	
Dimensions (W x D x H)	4.43 × 4.30 × 3.35 ft. (1,350 × 1,310 × 1,020 mm)
Weight	437 lbs. (165 kg), in crate 524.4 lbs. (198 kg)
Sound pressure	Operating: 52 db (A)
Ambient temperature	59°–95° F (15°–35° C)
Humidity	20% – 80% (not condensing)
Power requirements (V/Hz/A)	AC 115/230 V/50/60 Hz /6/3 A

Creating global leadership in printing

Canon and Océ join forces to create the global leader in the printing industry. For our customers this combines Canon and Océ technology with the support of the Océ direct sales and service organizations. Look to the new Canon-Océ combination for:

- Enterprise printing in the office and corporate printroom

- Large format printing of technical documentation, signage and display graphics

- Production printing for marketing service bureaus and graphic arts

- Business services for document process outsourcing
